

Fassbind Hotels

Environmental policy

Hotels: Cornavin, Cristal, Les Nations and Le Square
Geneva, Switzerland
November 20th, 2025.

At Fassbind Hotels, we are dedicated to protecting the environment and integrating sustainable practices into every aspect of our operations. Environmental responsibility and sustainability are fundamental to our business, and we strive to create meaningful social and environmental benefits within our community. Acknowledging our position within the global tourism industry, we are committed to managing our activities sustainably over the long term and contributing actively to the sector's overall sustainable development.

At Fassbind Hotels, we are committed to:

- Protecting the environment by reducing our impact and supporting conservation efforts.
- Monitoring our performance and setting clear environmental goals.
- Reducing our footprint through energy and water savings.
- Minimising waste through reduction, reuse, and recycling.
- Using organic, eco-labelled, fair-trade, local and seasonal products where possible.
- Training our staff on environmental and sustainability issues.
- Encouraging guests to join our environmental efforts.
- Raising awareness on environmental and sustainability matters.
- Maintaining a CSR policy covering social, cultural, economic, quality, human rights, health and risk management topics.

To ensure that the measures are well administered, the establishment has assigned **Clara Fassbind** as environmental manager, who will oversee monitoring the implementation of the initiatives put in place by the establishment.
